

Thank you so much for supporting 30 Days of Impact and The Barry L. Joyce Local Cancer Support Fund, an IRS-recognized 501c3 organization. Our Fund is the only of its kind in our area. Every dollar that we raise stays in Rockingham County to support the hundreds of cancer patients and their families here. We are the only agency that supports the entire county and does not receive funding from the government or United Way so your support is that much more crucial. It is only because of the support from generous folks like you that we are able to do what we do for so many fighting cancer in our area. And since cancer is the number one cause of death in Rockingham County, the need is vast.

Whether it is financial, educational, or emotional support, we are determined to make sure that every patient in our area has the resources to beat the cancer. They should not have to decide whether to feed their family or fill their next cancer prescription; heat their home or get to their next radiation appointment. Thanks to you, fewer have to make these almost impossible decisions. In addition, the programs at The Barry Joyce Cancer Resource Center assure that they are not in their fight alone. Here, they meet others that can relate and share experiences on a regular basis. Something every cancer survivor needs and deserves.

Thank you for making a difference in the life of a local cancer patient. Your support truly means more than you know.
